PRODUCT OVERVIEW

CoreGrowth is one of Old Mutual's Smoothed Bonus Portfolios. These are a range of products that target returns above inflation over the long-term (in excess of ten years) while providing protection against the volatility associated with market-linked products. CoreGrowth allows clients to choose the level of protection that suits them, offering a 90% and 100% guarantee option. Capital and bonuses will be guaranteed at the chosen level.

TARGET RETURN

For the underlying portfolio

Gross Target Return Midpoint

CPI + 4.8% p.a.

The portfolio's Gross Target Return is over the long term and is gross of capital charges and investment management fees.

For each guarantee option

Bonuses are applied to investments net of capital charges. As such, we arrive at the Net-of-Capital Charge Target Return for each guarantee option by deducting the Capital Charge for each option from the underlying portfolio's Gross Target Return.

Guarantee option	Capital Charge	Net-of-Capital Charge Target Return Midpoint
CoreGrowth 90	0.80%	CPI + 4% p.a.
CoreGrowth 100	1.80%	CPI + 3% p.a.

Target returns are what the portfolio aims to deliver over the long term and are not guaranteed
